Flexible to relocate, European citizen

About me

Product Owner with 3+ years building and scaling music learning products that drive activation, onboarding, conversion, engagement and retention for a global community of learners and musicians.

I develop incremental product experiences driven by discovery, while bridging complex commercial and licensing negotiations to expand a product's catalogue, capabilities and reach.

At Learnfield I translate commercial and user requirements into product strategy, with a clear roadmap of user stories and OKRs, working hand-in-hand with musicians and engineers from idea to release while driving business priorities and long-term vision forward.

Core strengths

- Product vision, strategy and roadmap
- Music product and content, with hands-on musicianship
- Multidisciplinary team leadership: design, engineering, content
- Backlog ownership for multiple teams: requirements, refinement, stakeholder-to-engineering translation and prioritization
- Commercial and licensing negotiation, bridged into product requirements and roadmap
- Experimentation and data ownership: A/B testing, KPI and OKR definition (activation, conversion, engagement, retention)
- Agile delivery and AI-augmented product workflows

Experience

Learnfield GmbH

2024 - Present

Product Owner • Berlin, Germany

- Led two multidisciplinary squads (Trala violin, Skoove piano) across web and native iOS/Android, working closely with design, engineering and content for a global user base in 7+ languages.
- Collaborated daily with musicians, arrangers and notation specialists to shape and ship musical content with notational accuracy.
- Negotiated and cleared rights with publishing partners, enabling 120% repertoire expansion in commercial and popular music.
- Designed and ran subscription and onboarding experiments (RevenueCat, Mixpanel) that grew revenue per paywall visitor 28.7% and contributed to 14% YoY revenue growth.
- Owned relationships with music publishers and licensors, including Hal Leonard, across licensing, rights clearance and contract terms.

- Drove internal-tooling improvements with engineers and the content team, cutting content-delivery time 70% and scaling content production.

Learnfield GmbH

2022 - 2024

Education Content Manager, Skoove (Piano Learning App) • Berlin, Germany

- Owned the content release cycle end-to-end (scoping, licensing clearance, localization, launch, post-launch review), shipping up to 260+ songs per quarterly release.
- Created and reviewed musical arrangements and built learning curriculum, applying hands-on musicianship to keep pedagogy and notation accurate.
- Expanded the catalogue into Japanese and Korean markets with locally validated, cleared repertoire.
- Built the company's licensing operations foundation (publisher pages, content-tactics matrix, rights workflows), now used across Engineering, Content and Marketing.

Education

SRH Heidelberg University

2020

Master of Arts in Therapy & Education Sciences • Heidelberg, Germany

Languages

- **Spanish:** Native (C2)
- **English:** Fluent (C1/C2), working language
- **German:** Professional working proficiency (B2+), daily use at work

Tools & platforms

- **Product & delivery:** Jira, Confluence
- **Music & notation:** notation and engraving workflows, score review, piano and violin repertoire
- **Design & prototyping:** Figma, Miro, Lovable
- **Analytics & experimentation:** Mixpanel, Google Analytics, App Store Connect
- **AI-augmented workflow:** Claude, Google Stitch (PRDs, discovery, prototyping)
